ROLES AND RESPONSIBILITIES

PATIENT SAFETY

Every employee's responsibility is to ensure that the hospital's patient safety goal continues to be the centrepiece of our quality and risk management program and that every patient is treated within a safe environment. To ensure compliance with this goal, each employee must:

- Find, report, and prevent incidents/near misses or adverse effects
- Communicate/report areas of concern immediately to your Manager
- Complete a Near Miss Form or Incident Report to communicate or report incidents or near misses

SUMMARY OF POSITION:

The Registered Pharmacy Technician provides the technical and clerical components of pharmaceutical services under the management and supervision of the Pharmacist. This includes initiation of best medication history workflow, drug distribution, inventory control, hazardous and non-hazardous sterile product preparation, prepackaging, ward stock, narcotics, training and other activities as required by the Pharmacist.

NATURE AND SCOPE OF WORK

ACCURATELY PREPARES AND DISPENSES ORDERED MEDICATION:

- Aseptically prepares Hazardous and non-hazardous sterile products.
- Acquires the required math and calculation knowledge needed for medication compounding
- Acquires the required knowledge of NAPRA standards needed for certification.
- Checks sterile products as prepared by other pharmacy staff for technical accuracy
- Dispense medications accurately
- Maintain dispensing records.
- Identifies the need for Pharmacist intervention and notifies the Pharmacist
- Checks dispensed medications by other pharmacy staff for technical accuracy
- Provide delivery of medications to all areas in a timely manner
- Clean and maintain biohazardous and CIVA hoods and arrange physical inspections twice yearly.

Best Possible Medication History, BPMH

- Collect multiple sources (minimum 2 sources) of information regarding patient medication history
- Interview patient or patient' agent to complete BPMH
- Inputs BPMH accurately into hospital EMR
- Identifies potential issues or discrepancies and communicates with pharmacist (or physician after hours)

MAINTAINS APPROPRIATE MEDICATION STOCK

- Participates in Continuous Quality Improvement activities
- Pre-package medication into unit dose format
- Distributes narcotics, controlled drugs, ward stock and night cupboard medications
- Maintains drug inventory levels
- Procures and receives medications from suppliers as per contracts
- Delivers medications to nursing units
- Ensures quality assurance for drugs stocked in patient care areas within the hospital and in the pharmacy department
- Maintains narcotic and controlled records and provides appropriate stock to patient care areas

CLERICAL

- Performs clerical duties (word processing, filing, etc.)
- Collects workload measurement statistics.
- Prepares monthly and statistical and financial reports and submits to the Finance department
- Notifies accounting of billings to other institutions as required.
- Revises pharmacy forms
- Prepares memos
- Contributes to updating the Formulary, Ward Stock lists, policies and procedures

EDUCATION AND TRAINING

- Provides training for students and staff as required.

HEALTH AND SAFETY

- The Registered Pharmacy Technician will demonstrate commitment to patient, resident and staff safety
- The Registered Pharmacy Technician will protect their own health and safety by working in compliance with:
 - The Occupational Health & Safety Act (Section 28)
 - Safe work practices (i.e., use of personal protective equipment)
 - Policies and procedures as established by the Hospital.
- The Registered Pharmacy Technician will attend hospital Health & Safety in-services when provided and will report any unsafe conditions/procedures to his/her immediate supervisor.

SUPPORT CLIENT/PATIENT SAFETY

- When client safety is affected or identified as a risk, report the matter to the area manager and fully participate in determining the root causes. Participate and support change processes so the incident will not occur again
- Suggest and support changes when the potential to impact client safety exists. Provide constructive feedback for any implemented changes to the process to ensure effectiveness and elimination of any client risks
- Promote a safe and comfortable environment. All healthcare providers should feel safe and comfortable asking questions or discussing the client's needs and best interests. Everyone should feel equally responsible for the client's safety and care
- Participate in multidisciplinary communication by communicating knowledge and sharing experiences that are geared toward minimizing the risk to client safety
- Utilize any available resources and tools that are aimed at minimizing the risk to client safety

QUALIFICATIONS

- Successful completion of the Pharmacy Examining Board of Canada (PEBC) Qualifying Exam
- Successful completion of the Ontario College of Pharmacists Jurisprudence Exam
- Registered and in good standing with the Ontario College of Pharmacists
- 3 years' experience in compounding hazardous and non-hazardous products
- Knowledge of pharmacy automation technology
- Demonstrated competency in understanding of the NAPRA standards
- Demonstrated knowledge of medication names and dosages
- Ability to communicate effectively with all levels of staff
- Demonstrated ability to work accurately with attention to detail
- Ability to function under minimal supervision
- Ability to work effectively and efficiently within a team
- Successful applicant shall observe strict confidentiality of all patients and hospital related information
- Successful candidate will ensure that patients are treated within a safe environment
- Excellent attendance record and availability to work schedule
- Hospital Pharmacy experience is preferred
- Must be able to fulfill physical requirements of the job
- Demonstrates a professional and respectful attitude towards patients, the public and colleagues
- Responsible for own professional development
- Observe strict confidentiality of all patients and hospital related information
- All new employees must obtain a satisfactory Police Check (vulnerable sector)
