Date: February 27, 2017

### **New Family Care Fund = Great Care!**

In Canada, we just celebrated Family Day. At Winchester District Memorial Hospital (WDMH), we live it every day! In fact, the WDMH Foundation has created a new Family Care Fund to help ensure the best care is available close to home for you and your family.

“WDMH has been caring for families in our communities for decades and our new Family Care Fund recognizes that commitment. Donations to the Family Care Fund will be used where your gift is needed most – to buy new medical equipment, upgrade existing equipment and meet other urgent needs at WDMH,” explains Kristen Casselman, Managing Director of the WDMH Foundation.

The Family Care Fund is designed to simplify the giving process for donors, providing one main fund for donations. However, donors are still welcome to choose from any of our funds such as the General Equipment Fund or Cancer Care Fund.

“The Family Care Fund is just that – a fund to support families just like yours,” sums up Kristen. “We want to work with our donors to ensure compassionate, excellent health care.”
